Orientation and placement testing ****	see notes	Orientation and placement testing	see notes

* Includes occasional holidays and optional break periods. See program schedule (school calendar) for details and dates.

** Educational field trips and social events are scheduled on an occasional basis and may take place during and/or before or after scheduled class periods. All educational field trips and social events involve teacher contact.

*** The mid-term Progress Test is administered at the midpoint of the academic quarter and takes approximately 90 minutes to complete. The final course examination (end-of-term Achievement Test) is administered during the last week of each academic quarter and takes approximately 3 to 4 hours in total to complete. The final course grade is determined solely by final examination (the end-of-term Achievement Tests), which directly measures the degree to which students have attained the course's written learning outcomes (see course outline for additional information on course grading policies).

**** Orientation and initial placement testing are conducted on or before the first day of class for all new students. New student orientation and initial placement testing take up to three hours. Ongoing orientation, advising and support are provided to all students by the school director and other qualified staff. Orientation, placement testing and ongoing advising typically take place outside of normal class hours.

Notes about typical and maximum lengths of program: The typical program length will vary for each student based on his or her starting level. A student who enters the program at the lowest level (Basic Step 1), makes normal progress while advancing through the program and completes the highest level (Advanced Step 6) without repeating any levels will remain in the program for a total of 18 months. If that student elects to take all of the program's post-completion elective modules (Proficiency, Pronunciation, and/or TOEFL), each of which requires an additional 3 months of study, then the student will exit the program in 27 months. The maximum amount of time any student may remain in the program is 48 months.
